THE NEW LOOK BOOK POLISHED CONCRETE FLOORING AND SURFACES

HIGHLY VERSATILE RESIDENTIAL AND COMMERCIAL CONCRETE INSTALLATIONS, WITH A RANGE OF PRODUCTS DESIGNED TO ENHANCE AND ADD VALUE TO ANY HOME OR DEVELOPMENT.

Residential installation expertise

Lazenby is the market leader when it comes to decorative concrete. With over 30 years' experience we have developed a range of products and systems available to suit all residential developments. Whether you have a new build house looking for a polished concrete floor or a refurbishment requiring concrete tiles, we have a suitable product.

Decorative concrete not only looks stunning but is an extremely durable option designed to add value to any home. With our unrivalled expertise we can create a variety of matching surfaces and furniture, all designed to perfectly complement a polished concrete floor.

We understand that working with new materials can be daunting, that's why we aim to make the entire process as simple and easy as possible. Our dedicated site coordinators and operations team are on hand to manage the installation process and ensure that each project runs as planned from start to finish.

Commercial installation expertise

Concrete's hard wearing and durable nature make it the ideal material for public, retail and commercial spaces. Lazenby has a proven track record of delivering commercial projects on time and on budget.

By utilising the phenomenal knowledge we have throughout our team, we can help you find the product that is right for your project. Whether you're looking for decorative concrete on the ground floor or Terrazzo on the 30th floor, we have a system and aesthetic that works for you.

We work closely with main contractors and architects to ensure that every project is completed to the highest standards. Architects continually trust Lazenby on some of the most high-profile projects throughout the UK. Examples include The British Museum, The Tate St Ives and The Marshall Building at The London School of Economics.

LAZENBY POLISHED CONCRETE

Displaying all the premium quality that sets us apart from would-be competitors, this is our iconic flagship product. Hard-wearing, easy to maintain and stunning to behold, a Lazenby polished concrete floor is suitable for almost all residential and commercial environments.

Available in a myriad of colours and finishes, our floors have the flexibility and versatility to enhance any design.

PRODUCT FEATURES

Hard wearing and extremely durable finish

Laid directly over underfloor heating pipes, eliminating the need for a traditional screed

Easy to maintain

Seamless transition available from inside to outside spaces

Quick and simple installation process

Modern and sophisticated look, available in a wide range of colours

Dedicated site coordinator to ensure a hassle-free installation

12 month defect warranty

Anti-slip feature of +36 PTV in the wet is achievable

DISCLAIMER:

Lazenby Polished Concrete floors are hand made and will be subject to colour and texture variation.

COLOUR. BASALT.
BERKSHIRE HOUSE

Basalt is a stylish classic which is at its best in large, open spaces with lots of natural light and light contrasting walls. The enigmatic colour tones are gorgeous too with its blend of subtle dark grey and blue pigments.

Architect: Gregory Phillips. Photography by Mel Yates

COLOUR. BLACK.
HOLLOW BROOK FARM

Black provides a subtle and refined backdrop for any space with an abundance of natural light. Its elegant nature gives an air of sophistication that only it can.

Interior Design: Kirstie Howard in collaboration with KD Designs / Build: Barr Build / Kitchen: Barr Kitchens

COLOUR. COOL GREY. THE WESTWORKS

Cool Grey is pure charisma in concrete form. This classic, beautifully rich colour is unsurprisingly one of our most popular polished floor colours, managing to feel cool and light in the summer and warm and welcoming in the winter.

COLOUR. CREAM BUFF.
ESHER, SURREY

One of our most inviting flooring colours, Cream Buff allows you to create a genuinely relaxing atmosphere and helps to brighten up pretty much any space, especially if there is lots of natural light available.

Photography by Jeremy Phillips

COLOUR. DARK GREY.
BEACONSFIELD

Dark Grey is supremely versatile as it is equally at home in traditional and contemporary spaces. It brings a serious touch of class to any flooring project.

COLOUR. HENLEY BUFF. DALSTON, LONDON

Henley Buff allows you to create a warmer, more welcoming vibe than you get with most other concrete tones. The light shade also helps to brighten up rooms, especially ones that aren't well lit.

Paul Archer Design. Photography by Oliver Perrott

COLOUR. IMPERIAL GREY.
CANNING CROSS, LONDON

Imperial Grey is a timeless classic. With warm, earthy undertones it is perfect for all kinds of architectural projects, from modern domestic refurbs to large public spaces.

COLOUR. IMPERIAL GREY.
ISABEL MARANT STORE

Imperial Grey was chosen for this retail store due to its warm and natural qualities. The client requested a matt finish to the floor to maintain its industrial character.

COLOUR. IRON GREY. BERMONDSEY, LONDON

Iron Grey is absolutely mesmerising as its shimmering tones really come to life in natural light. Built to last, and to look better and better over time, it's a great way to make a bold statement and is an increasingly popular choice in for a wide range of contemporary living spaces.

Architect: Amanda Mosley. Photography by Jeremy Phillips

COLOUR. LIGHT NATURAL. OLD STREET - COMMERCIAL

Light Natural is the minimalist flooring colour. 100% iconic and the UK's number one choice for concrete flooring, it ranks firmly as our most wanted colour. Lazenby's Light Natural suits every kind of environment and architectural space. It sits beautifully against a wide spectrum of accent colours and, basically, looks the business.

Architect: AHMM. Photography by Rob Parrish

COLOUR. LIGHT NATURAL. CENTRAL LONDON - COMMERCIAL

Polished concrete was chosen as the ideal material for this commercial reception. The durability and low maintenance of a concrete floor was a key factor in it being specified.

Our Light Natural was selected as the colour due to its neutral tones and flexibility.

Photography by Jeremy Phillips

COLOUR. LIGHT NATURAL. HOUSE CURIOUS

Light Natural polished concrete floors were installed 100mm deep over underfloor heating. Inside and out, House Curious comprises 207m² of Lazenby's mottled, satin finished, iconic concrete floors, creating elegant architectural lines throughout.

Ade Architecture. Photography by Matt Clayton

COLOUR. MAYFAIR GREY
(WITH RAVEN INTEGRAL).
HAMILTON GALLERY

Mayfair Grey is a serious touch of class. This striking, contemporary colour is entirely at home in spacious, open plan architectural environments, especially when contrasted with light wall colours and bathed in natural light.

COLOUR. MOSS GREEN.
DALLING ROAD

Earthy, soft, and elegant, Moss Green is still loaded with drama and potential. This exquisite flooring colour is an easy way to create depth within a space, bringing subtle green tones that will enliven any environment; inside or out.

Neil Dusheiko Architects

COLOUR. OFF WHITE.
WEST SUSSEX

Off White is one of the most popular choices for family spaces. It zings in natural light, but it's especially good in smaller spaces that will benefit from reflected light.

COLOUR. OYSTER WHITE.
BATTERSEA, LONDON

Oyster White just oozes luxury. Stylish and welcoming, this iconic colour makes a stunning first impression for any space and it is ideal where reflected light is needed for brightness. Quintessentially contemporary, it works well with a wide range of complementary tones, such as wood and steel.

COLOUR. BESPOKE PINK.
R7 KINGS CROSS

Lazenby Pink is the latest addition to our colour range and we absolutely love it. The bright and vibrant colour provides the perfect backdrop for a real statement piece.

DIAMOND POLISHED CONCRETE

If you're looking for hard wearing, exposed aggregate flooring then look no further. Our Diamond Polished Concrete exposes the aggregate within the surface of the concrete to give a traditional, raw industrial look; meaning it's extremely popular for commercial and public spaces, as well as urban environments.

PRODUCT FEATURES

Hard wearing and extremely durable finish

Crafted from locally sourced, sustainable materials

Perfect for use with underfloor heating systems

12 month defect warranty – contact us for more details

Easy to maintain

Aggregate and colour is unique to each location

Anti-slip feature of +36 PTV in the wet is achievable

THE COLOURS.

The beauty of a Lazenby Diamond Polished Concrete floor is that it gives a natural concrete finish combined with the beauty of locally sourced aggregate and colour.

This means that the colour and aggregate can vary greatly, depending on the location of the project. In some scenarios, colour options or seeded aggregate are available. However, once an order has been placed, we can provide bespoke floor samples for approval prior to installing the final floor

We're able to offer a multitude of finishes depending on the level of exposure required. This ranges from fine aggregate exposure to structural aggregate exposure. Please speak to our team to discuss any of these aspects further.

DIAMOND POLISHED CONCRETE. OXFORD STREET, LONDON

This retail store on Oxford Street features a natural concrete colour with a 10mm Limestone aggregate. Limestone is one of the most readily available aggregates for Diamond Polished Concrete flooring.

DIAMOND POLISHED CONCRETE. TATE ST IVES

Diamond Polished Concrete floors were used throughout the new Tate St Ives Gallery in Cornwall. The floor was cast using local materials featuring a granite aggregate. The natural materials created an extremely light, pale concrete colour.

ARCHITOP FLOORING

Architop is a blend of quartz sand, cement and binders. It is mixed with a polymer for minimal shrinkage. With an applied depth of just 2mm, it allows you to overcome the thickness and weight limits of traditional concrete, whilst maintaining its beauty and robustness.

As minimal floor preparation is required, Architop is perfect for refurbishment projects and retail environments where it is not possible to remove existing floors.

PRODUCT FEATURES

2mm thickness

Can be installed over existing flooring

Does not require any joints

Imitates the look of a polished concrete floor

Anti-slip feature of +36 PTV in the wet is achievable

Dedicated site coordinator to ensure a hassle-free installation

Ideal for installations on upper levels and where access is limited

Easy to maintain

DISCLAIMER:

Lazenby Architop floors are hand made and will be subject to colour and texture variation.

Samples are available upon request following production of a quotation.

Architop comes in a unique range of 7 colours, each featuring a unique cloudy, mottled effect that is a result of the hand-laid Architop process. Every project is hand-crafted by our master craftsmen to create a hard wearing floor of unique beauty. As well as a variety of colours, we can also offer a variety of sealants to give either a matt, satin or gloss finish. Please note that Architop colours do not match our polished concrete colour range.

ARCHITOP. COLOUR. BESPOKE OXFORD STREET

Architop was used on this retail store due to the existing sub floor only allowing for a 20mm floor finish. A bespoke colour was created to match to RAL 7032 specified by the Architects.

Photography by Lazenby

ARCHITOP. COLOUR. NEUTRO HARVEY NICHOLS, KNIGHTSBRIDGE

Neutro's light tones were specified on this retail store within Harvey Nichols, London. Due to the lack of natural light within the store, a white colour was used to ensure the space gleamed.

Photography by Lazenby

LAZENBY TERRAZZO

Welcome to the latest addition to our product range. Lazenby's in-situ Terrazzo allows you to create beautifully bespoke aggregate and colour combinations that aren't possible with our traditional Diamond Polished Concrete flooring product.

PRODUCT FEATURES

Limitless possibilities for colour and aggregates not available with traditional concrete

Can often be laid over an existing floor, eliminating the need to remove the sub floor

Does not require any joints

Extremely hard wearing and durable finish

Trims and inlays can be incorporated into the floor

Can be used for other surfaces such as stairs and furniture

Anti-slip feature of +36 PTV in the wet is achievable

THE COLOURS.

We have developed a range of standard colour and aggregate combinations which are readily available. With 4 standard aggregates and 3 concrete colours, they offer a great selection.

Bespoke colour and aggregate options are also available. Please get in touch to discuss your requirements.

Samples are available upon request following production of a quotation.

TERRAZZO FLOOR. LONDON SCHOOL OF ECONOMICS

The Marshall Building at The London School of Economics is a perfect example of how to incorporate a Terrazzo floor into a project. The Lazenby Terrazzo floor was laid in three colour and aggregate combinations. Each was separated by an aluminium trim to form a feature pattern.

The Terrazzo flooring was also used for the bench seating and jaw dropping helical staircase.

TERRAZZO FLOOR. OLD BAILEY

Lazenby's Terrazzo flooring was used on this high profile project in the heart of London. Due to the extremely light background colour of the concrete, our Terrazzo product was ideally suited. The floor was enhanced with an elegant brass trim around the staircase and reception desk.

CONCRETE TILES

Available in any size, shape and colour, our concrete tiles are perfectly suited for both floors and walls, and are all hand crafted in our Yeovil manufacturing centre. Ranging from as thin as 12mm and to a maximum size of 1200mm x 1200mm, our concrete tiles are as stunning as they are practical.

PRODUCT FEATURES

Individually hand crafted by our concrete experts

1200 x 1200 max size for internal tiles

Bespoke and made to order

1000 x 1000mm max size for external tiles

Suitable for walls, floors or stairs

Cast-in nosings available when used for stairs

For internal and external use

Anti-slip feature of +36 PTV in the wet is achievable

Can be more cost effective than a poured concrete floor

DISCLAIMER:

Please be aware that our pre-cast colours are not a perfect match to our polished concrete colours. Due to the nature of the material, manufacturing, curing and finishing processes, each item will be unique and individual in appearance.

Samples are available upon request following production of a quotation.

Our pre-cast tiles are available in 14 different colours. At Lazenby we use a variety of sealants depending on the final use of the product, and these sealants can affect the final colour of the product. If in doubt speak to us to check! Floor tiles are available in a smooth or textured finish. Wall tiles are available in variety of finishes such as smooth, industrial or wood effect.

COLOUR. BESPOKE
DENMAN+GOULD

Lazenby manufactured dozens of 300 x 300 x 300 triangular shaped tiles for a unique art project by Denman+Gould. The project featured tiles in an array of bespoke colours, all of which were laid outside.

Denman+Gould

COLOUR. SAHARA
WIMBLEDON, LONDON

We produced 1200 x 1200 concrete tiles in our Sahara colour which were laid throughout the bathrooms in this home. Bespoke tiles were also manufactured to be installed within the slot drains. The tiles were cast with a textured face to make them suitable for a wet environment.

COLOUR. PLATINUM GREY
WALKERS COURT

This stunning theatre in Soho utilises our Platinum Grey concrete tiles on the floor which then extend up the three flights of stairs. The 1200 x 290mm concrete tiles were designed to mirror the profile of the stair treads.

Architects: SODA. Photography by Jack Hobhouse

COLOUR. PLATINUM GREY
WALKERS COURT

L shaped concrete stair treads were clad over the steel sub-structure to give a solid concrete appearance. Each tread features two brass nosing strips and a 5mm recess on the riser to comply with building regulations.

Soda. Photography - Jack Hobhouse

COLOUR. EBONY
ZIGZAG BUILDING

Lazenby's 1000 x 1000mm concrete tiles were laid throughout this reception area and lift lobbies in this high traffic commercial building. The hard wearing nature of concrete tiles made them the perfect fit for this busy environment.

COLOUR. FOREST
COVENTRY CATHEDRAL

Lazenby's Forest wall panels were used to clad the lift shaft across two floors of this Cathedral renovation project.

The panels feature an industrial effect finish to beautifully accentuate the feature wall.

WORKTOPS, SURFACES & FURNITURE

Our technical know-how and enhanced manufacturing capabilities mean we can produce a wide variety of concrete elements such as worktops, furniture and surfaces to suit any environment, all handcrafted by our expert master craftsmen.

PRODUCT FEATURES

Extremely hard wearing and stylish finish

Colour match to polished concrete floors (on-site casting)

Complementary colours are available for pre-cast items

We can produce bespoke items to any size or shape

Each individual project receives the same care and attention as our concrete floors

Items cast on site can be free from joints

APPLICATION IDEAS.

The possibilities of what we can make are endless. Here are some ideas to inspire you.

The only limitation is your imagination.
We can bring your visions to life.

WORKTOPS

ISLANDS

STAIRS

SERVERIES & TABLES

BBQ TOPS

PLANTERS

FIRE HEARTHES

RECEPTION DESKS

KITCHEN ISLANDS & WORKTOPS.

Concrete's versatility mean that it is perfectly suited to kitchen worktops & islands. Worktops can be created as simple tops or cast in-situ to any size and design.

Kitchen Architecture

COLOUR. LIGHT NATURAL PORTOBELLO

Concrete's stunning beauty makes it an ideal material for a feature staircase. By casting a staircase insitu we are able to perfectly match the colour of a polished concrete floor.

The completely free standing structure can be a great way to connect polished concrete floors on multiple levels.

Humphrey Kelsey Architecture. Photography by David Butler

COLOUR. LIGHT NATURAL
WILLIS ROAD

This stunning garden features an outdoor dining table, bench and cantilevered seat. All the items were cast in-situ to match the external concrete patio. The garden forms an ideal space for outside family living.

PiP Architects / Garden Design and Photography by Colm Joseph

COLOUR. BESPOKE
DENMAN+GOULD

These unique planters and stools were all produced in our pre-cast factory in Somerset. The clever design allows for complete flexibility as the stools can be configured in a multitude of different ways.

Each stool was produced with a hollow core to ensure the weight was kept to a minimum.

Denman & Gould.

COLOUR: AZURE GREY
HAMMERSMITH

We created over 20 bespoke panels to clad this 6 metre long reception desk. Each panel was carefully designed to perfectly slot together over the timber structure.

The panels were cast in Azure Grey to compliment the Basalt polished concrete floor.

Design Studio: Flanagan Lawrence. Photography by Jeremy Phillips

COLOUR: COOL GREY
THE WESTWORKS

This unique reception desk was cast in-situ as one solid piece of concrete with no joints or seams. The desk was cleverly designed to incorporate shadow gaps at the base which gives the illusion that the desk is floating.

Architects: AHMM. Photography by Jeremy Phillips

PRE-CAST SINKS

Concrete's versatility and durability make it an ideal choice for a bathroom or washroom sink. Every sink is hand crafted in our Yeovil factory to your exact design and specification. Typically cast using our Glass Reinforced Concrete, our sinks are super lightweight when compared to traditional concrete sinks.

PRODUCT FEATURES

Hard wearing and extremely durable finish

Available in both an industrial and contemporary look

Completely customisable for a unique solution

The perfect complement to a polished concrete floor

Easy to maintain

SINKS.

The unique characteristics of concrete help to create a completely distinctive product not likely to be found on the high street. Utilising an ultra-strong, lightweight concrete, we are able to cast our sinks to four, five, even six basin sinks in a single piece.

With the correct care and maintenance, Lazenby concrete sinks are likely to last for decades
